

# Chelsea Rose J. Pimentel

## Computer Science Student

+63 936 743 8151 | pimentelchelsea@gmail.com | [linkedin.com/in/chelseapimentel/](https://www.linkedin.com/in/chelseapimentel/)  
Cebu City, Philippines | Portfolio

## EDUCATION

### University of San Carlos

Bachelor of Science in Computer Science

2023 – Present

Cebu City, Philippines

## TECHNICAL SKILLS

**Languages** : C#, Java, Python, JavaScript, PHP, C, Assembly

**Web & Backend** : .NET 10, ASP.NET Core, Blazor, Razor Components, React.js, Node.js, Express.js, Spring Boot, Spring MVC, REST APIs, Gemini API, JWT, JPA/Hibernate

**Mobile & Cloud** : Android Studio, Android SDK, Firebase Authentication, Cloud Firestore, SpeechRecognizer, Text-to-Speech

**Databases & ORM** : SQLite, MySQL, MongoDB Atlas, Entity Framework Core, JPA/Hibernate, Firebase

**Data & Machine Learning** : Pandas, NumPy, Matplotlib, scikit-learn, XGBoost

**Tools** : Git, GitHub, Postman, Maven, Gradle, IntelliJ IDEA, Jupyter Notebook, Google Colab, Figma

**Other** : HTML, CSS, XML, basic networking and cybersecurity

## PROJECTS

### Kwenta | Full-Stack Developer

2026

- Developed a Philippine-focused personal finance web application using **C#, .NET 10, ASP.NET Core, Blazor, Entity Framework Core, and SQLite**, supporting expense tracking, budgeting, weekly allowances, savings goals, and account transfers.
- Integrated the **Google Gemini API** to power a financial assistant for spending analysis, budget insights, affordability evaluation, purchase planning, and natural-language transaction interpretation while keeping financial calculations deterministic in C#.
- Built AI-assisted natural-language expense entry with smart categorization, editable transaction previews, and explicit user confirmation, with **ASP.NET Core Identity** enforcing authenticated user-data isolation.

### Project IMULAT | Frontend Developer & UI/UX Contributor

2025

- Built responsive interfaces for an AI-assisted misinformation-detection web application using **React.js, Tailwind CSS, and Figma**.
- Developed authentication, profile-management, claim-review, filtering, and validation features using **React.js and JavaScript**.
- Implemented UI components for AI-assisted claim evaluation and peer-review reporting; performed accessibility checks, integration testing, and debugging through **GitHub**-based collaboration.

### SmarTech | Android Developer

2025

- Developed an accessibility-focused Android mobile assistant for visually impaired users using **Java, Android Studio, XML, and Material Components**.
- Implemented account authentication, user profiles, and emergency-contact management using **Firebase Authentication and Cloud Firestore**.
- Integrated **SpeechRecognizer, Text-to-Speech, and haptic feedback** to support voice commands, spoken guidance, and hands-free navigation.

RESEARCH

---

**Undergraduate Thesis**  
**Predictive Mapping of County-Level Adult Obesity Prevalence Using Stacking Ensemble Learning**

Ongoing

- Developing machine learning models to estimate adult obesity prevalence using food-environment, socioeconomic, demographic, and health indicators.
- Applying data preprocessing, geographic analysis, and ensemble learning with models including Random Forest, XGBoost, and stacking methods.
- Evaluating predictive performance using MAE, RMSE, and  $R^2$ .

CERTIFICATIONS

---

**Fundamental Information Technology Engineers Certification**  
*PhilNITS*

Apr. 2026

- Demonstrated foundational competency in software development, algorithms, databases, networking, information security, and project management.

**TOPCIT — Level 2**  
*Ministry of Science and ICT, South Korea*

Jun. 2025

- Demonstrated practical competency in software, data, system architecture, information security, and IT business.

**Tech, AI & Career Readiness Program — Vietnam Immersion**  
*Saigon Business School / Viet My College*

May 2026  
Ho Chi Minh City, Vietnam

- Participated in a week-long international immersion focused on technology, AI, career readiness, teamwork, and cross-cultural collaboration.

**Junior Cybersecurity Analyst Career Path**  
*Cisco Networking Academy*

2025

- Developed foundational skills in security controls, network and system threats, vulnerability assessment, risk assessment, and incident response.

**Associate Data Analyst**  
*DataCamp*

2024

- Certified in data-analysis skills including data cleaning, exploration, visualization, and communicating analytical findings.
